Living and non-living

Montague is surrounded by the beautiful natural environment of Lysterfield Park. There is an abundance of wildlife to see in the forest and woodland areas and it's a popular spot for water sports and mountain biking.

Indicate if the pictures below are living or non-living by ticking the correct box.

Remember all **living things** breathe, eat, grow, move, reproduce and have senses. **Non-living** things do not eat, grow, breathe, move or reproduce. They do not have senses.
